get all what they have
published of Handel in exchange
for copies of the life of
Handel on the ordinary ground:
the music half the price marked
as the life at 6th, which are
the trade prices.

I have already from them
God's songs; thus, that must
be excepted. I had them by
Mr Purday in exchange I wished
to get God's choruses but
they declined so much the
better if you can induce them
to alter their mind about that and

Borrow Lives and all what they
have published else with the
exception of their missals which
I have already.

I see they have published also
12 Sacred songs of Handel
arranged by Callcott in single pieces
I should like to have select
airs from airs for single pieces
by the same that you have
published

If in addition, prefer the
exchange with the French missals
and tonson did all the same for
me. Yours very sincerely

Paylor's songs of Handel ?

I saw that you have issued
the French songs of Handel. I
think it is a pity you did not say
in a note they were seen by him
about 1707 or 1708. That would
have increased the interest of your
publication. So

many adaptations have been made
to french english and Italian words
that the public can believe that
these two songs are also a mere
adaptation.

I will keep the 2 books of
Suites de pieces by Beethoven.
