My Dear Sir

We may be sure, ~~it is~~
my opinion, that
there is no edition of the
messrs. by W. Schabert, and I
am glad you made this
new experiment of it,
with that gentleman who
was so polite to have
me.

I do not believe I
but they know much about
Schabert

the chance of need information.

I will feel very obliged to
you if you have the time I will
show for me the 3.000

suppose you will be easier for you

Still in the hands of Mr. Tracy
but do not forget to
give it to you

As Sancton and Gleanings
were in our corner with old
books that I had ^{we} returned to
you in order they went over
of my memory for which I
am sorry. I hope your father
will see him together. To take

11 sheets for them as was
the same price. I gave lately
for Althelia and Mrs. Swinburne
German Editions which
was in the last catalogue of

preface of Sancton is
interesting and induced me
to keep the book, so
I send you 5 sh. with this
letter.

I beg you my Dear
Sir to please my
wishes to Mr
John Rowdale

if I judge by his profane to his
edition of the M. P. M. manuscript
but perhaps being I was told
a very able man he had off
some oral tradition which
can be valuable. At any
rate you should do very well
to hear him if you have
opportunity for it. You
know enough to take advantage
of any such occurrence

I will see with great
pleasure and should like
to have the half at least
of

the prints you mention, and I will
not be in town before the end of August.

Remain my dear Sir
Yours very truly

W. H. G.
